Critical Components, Expert Support

Applied Industrial Technologies has partnered with more than 4,000 world-class manufacturers that lead the industry with the most innovative, efficient and reliable industrial products. As one of North America’s largest industrial distributors, Applied® is a vital link between a full scope of suppliers’ capabilities and a broad range of customers’ needs.

Yet Applied® has more than just the critical products and parts needed to minimize downtime and improve operations. Applied® also provides added value through innovative solutions and knowledgeable recommendations. We create customer success through the products we provide.

With approximately 50 locations across Canada, 24-hour service, and a host of time-saving, value-added services, Applied® is a strategic sourcing partner you can trust.

**RELIANCE INDUSTRIAL PRODUCTS**
Reliance Industrial Products is a value-added distributor, serving the unique needs of the upstream oilfield drilling market. Reliance offers “one-stop shopping” convenience to customers through a full range of products and services, which include:

**PRODUCTS**
- Fluid conveyance (hose and fittings)
- Hydraulic components
- Oilfield equipment and supplies
- Safety equipment and supplies
- Chaining and rigging

**DESIGN AND MANUFACTURING**
- Engineered hydraulic systems
- Mechanical services
- Machine shop services
- Hydraulic system maintenance and repair

**INDUSTRIAL SERVICES**
- Hose and fitting supply
- Oilfield drilling equipment supply
- Pressure testing
- Safety supply, service and testing

**HYDRAULIC SYSTEMS AND MECHANICAL SERVICE**
- Full machining and fabrication capabilities
- Complete system design and manufacturing of hydraulic and pneumatic systems
- Custom power units and cylinders
- Full CNC machining
- Manual machining and slotting

Fluid Power

SOLID SOLUTIONS IN A FLUID ENVIRONMENT

Applied Industrial Technologies is the world's largest fluid power distributor. Across Canada, our fluid power companies operate 15 servicing locations that are your resource for dedicated fluid power support, including:

- System Integration
- Manifold Design
- Machining and Assembly
- High Velocity Oxy-Fuel (HVOF)
- Cylinder Repair
- Electronic Controls
- Fabrication
- Fluid Filtration
- Hose Assembly
- Shop & Field Repair Services
- Power Unit Design & Fabrication
- Hydraulic System Retrofits
- Fluid Sampling & Analysis

Additionally, Applied® has one of the largest teams of Certified Fluid Power Specialists, Certified Electronic Control Specialists and Certified Fluid Power Mechanics and Technicians to assist you with problem solving, system building, troubleshooting and other custom requirements.

STOREROOM MANAGEMENT PRODUCTS

ASSET MANAGEMENT PRODUCTS
(Cabinets, Lockers, Vending Machines, Point of Use Dispensing Systems)

PTI Solutions
SupplyPro

Integrated Supply Services
Applied® provides a full range of products and services for customers seeking a single source supply solution. Applied Integrated Supply Services will deliver:

- Reduced Operating Costs
- Inventory Management & Control
- Productivity Enhancements
- Cost Control

Applied will use technology such as AppliedSTORE® to help manage your store room inventory, provide usage reporting and ultimately deliver cost savings.

Applied® Vending Solutions

Applied® vending solutions bring control to your distributed inventory so you know where your assets and consumables are at all times.

Managing inventory with Applied® vending equipment reduces MRO supply costs and time spent searching for supplies by securing distributed inventory and offering accountability for misplaced assets.

Customer Advantages

Applied® vending solutions consistently deliver cost savings and results, including:

- 20-40% reductions in spend when adding control to distributed inventory
- Elimination of unaccounted tool loss
- Reduction in procurement costs through automated ordering, interfacing into client systems and inventory alerts for avoid stock outs and associated expedite charges
- Improved workforce productivity by eliminating time away from work area
- Increased compliance through authorized permissions to tools and supplies
Demonstrated Expertise

Applied Industrial Technologies offers a host of specialized value-added services that support your needs beyond just sourcing products. These tools help make you more efficient, productive and profitable. And, like our products, you can trust that our services are backed by the most knowledgeable specialists who understand and appreciate your processes.

LUBRICATION SOLUTIONS

Applied’s team of factory trained lubrication experts offer lubrication solutions for any application.

LUBRICATION PRODUCT OFFERING

- General Lubrication Products
- Automated Lubrication Systems and Equipment
- Bulk Lubricant Dispensing
- Fluid Storage, Handling and Cleanliness
- Fueling Equipment
- High Performance Specialty Lubricants

LUBRICATION SERVICES

- Customized System Design
- Full Testing Facilities
- Lubrication Equipment Repairs
- On Site Service, Maintenance and Installation
- Product and Systems Training
- Core Product Exchange Programs
- Service Loaners

COST SAVING OPPORTUNITIES FROM AUTOMATED SYSTEMS

- Reduced Manual Labour
- Increased Productivity
- Increased Component Life
- Reduced Grease Consumption

STOREROOM & INVENTORY MANAGEMENT

Applied® offers comprehensive storeroom and inventory management solutions that enable you to cut costs and time associated with maintaining and issuing spare parts.

AVAILABLE SERVICES

- Applied® Vending Solutions
- Barcoding and RFID Technologies
- Storeroom Organization and Optimization
- Inventory Rationalization and Surplus Reduction
- Vendor Managed Inventory
- Critical Spares and Committed Inventory Management
- Kitting

STRATEGIC ACCOUNT MANAGEMENT

Strategic Account Management services from Applied® can offer extensive cost savings to your bottom line

STRATEGIC ACCOUNT SERVICES

- Single Source provider of Industrial Components and Value-Added Services
- Leverage Competitive Pricing Based on Total Customer Spend
- Documented Value Added® (DVA) Cost Savings
- Storeroom and Inventory Management Programs
- Coordinated Delivery of Technical Services
- Customized Site Specific Service Programs
- Coordinated Administrative Support Including Data Management
REPAIR AND REBUILD CAPABILITIES

It is often more cost effective to repair or rebuild parts than to purchase new ones. Applied® Associates can identify what’s best for your worn parts and assemblies, whether it’s repair, rebuild, replacement or even a new, more efficient system.

Areas of Repair Expertise

- Gear Reducers
- Large Bore Bearings
- Power Transmission Components
- Hydraulic Pumps, Motors, Valves & Cylinders
- Trunnions & Engineered Pulleys
- Lubrication Equipment
- Pumps
- Fluid Couplings
- Other Specialty Items

Shop Services

- Custom Design, Assembly and Fabrication Services
- Reverse Engineering and Retro-fitting of Obsolete Products
- Product Modifications and Improvements
- Spin, Load and Vibration Testing
- Asset Management Services
- Detailed Reporting
- Extended support from Technical Services, Project Group and Field Sales Force

TECHNICAL SERVICES

Applied’s team of Engineers and Technologists are regionally located across Canada to provide a responsive technical support service to our customers, including application and product assistance.

SOLUTIONS OFFERING

- Bulk material handling system review and design (Conveyors and process machinery reliability improvements)
- Mechanical drive review and design
- Impartial solutions assessments for customers
- Internal Drafting and 3D modelling expertise
- Industry sector knowledge integration throughout the company
- New technology review and recommendations

bearing repair

Is Bearing replacement costing your operation excessive downtime and money? Bearing repair services from Applied may be an option.

BEARING REPAIR SERVICES

- Bearing Inspection, Repair and Refurbishment
- Failure Analysis
- Bearing Modification
- Bearing Housing Repair
- Detailed Analysis and Reporting
- OEM Repair Service Partners

PROJECT SPECIALISTS

Applied® has an experienced project team that provides Material Handling and Power Transmission supply management for Capital and MRO Projects.

PROJECT MANAGEMENT CAPABILITIES

- Market Cost Analysis to Reduce Upfront Costs
- Mechanical Engineering Support and Analysis
- Design, Fabrication, and Supply of Material Handling Systems
- Quality Assurance and Control Program
- Detailed Inspection and Test Plans
- Product Rationalization and Standardization
- Recommendations to minimize mechanical spare parts requirements
